

What's New in CIS for 2015-2016

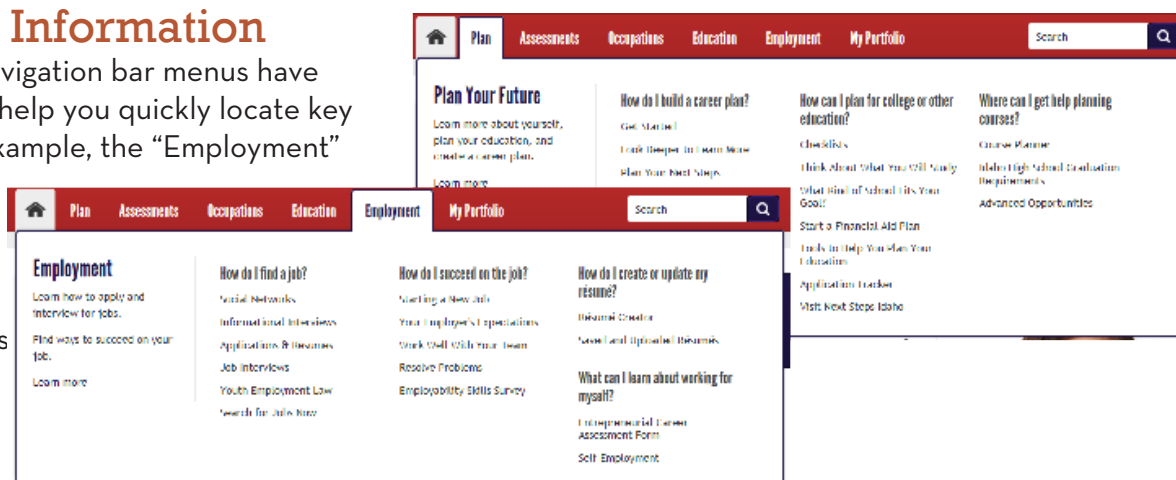

More Menu Information

Some of the red navigation bar menus have been expanded to help you quickly locate key information. For example, the "Employment" menu now lists

- Applications & Resumes,
- Job Interviews
- Social Networks

instead of just Job Search.

And look for the new "Where can I get help planning courses?" section in the "Plan" tab.

New for Course Planner

Idaho Digital Learning Academy's course information is now part of CIS. Students using CIS Course Planner can select from IDLA's wide variety of online courses as well as from your school district's course catalog. Contact CIS for help loading IDLA courses.

Resume Writer

You'll see tips and explanations for every type of entry: work experience, education, volunteering, etc. New calendar-style date selectors help with putting together a resume or information sheet for a job application.

Portfolio Account Settings

Students and adults have the ability to delete their own CIS Portfolio account from their Account Settings page.

Password Reset

If your student or client cannot remember their security questions, they can now have a password emailed to them if they've entered an e-mail address in their portfolio. This way they can reset their own password without help from their teacher or counselor.

Occupation Videos

The format for videos within occupation descriptions has been updated to make them run more easily on different computer systems.
